Subject: Avery Landing UAO re Potlatch

Hello,

Attached please find a copy of the unilateral administrative order (UAO) provided last week to Potlatch for the work to be completed at the Avery Landing Site this upcoming summer. The work is tentatively scheduled to begin late May/early June and to last through October. Potlatch requested the UAO v. an administrative order on consent, and Potlatch has the opportunity to confer with EPA and present information to EPA concerning the order.

The UAO is for your information; no action is required by the State. Please share as appropriate.

Thank you.
